Town of Gilbert Selects Voice Mobility Vmerge

VANCOUVER, BC, CANADA – June 30, 2009 – Voice Mobility International, Inc. (TSX: VMY, OTCBB: VMII and FWB: VMY), a Vancouver-based developer and provider of carrier and enterprise unified communication solutions, today announced that The Town of Gilbert in Arizona has selected the Vmerge unified communications (UC) solution.

The Town of Gilbert is one of the fastest growing cities in Arizona located in the southeast valley of the Phoenix metropolitan area. Gilbert's current population of 215,000 has doubled every five years since 1980. With attractive demographics, award-winning amenities, prime business incentives and high-profile developments, Gilbert offers immediate, attainable economic opportunity for industry-leading companies.

"The Town of Gilbert has selected the Voice Mobility Vmerge solution to replace our current voicemail platform. We are currently in the midst of our migration process" said Ajay Joshi, Technology Services Manager, "We selected Vmerge because it is a powerful and scalable platform. It will allow the Town of Gilbert to enhance our customer service to both our internal and external customers."

"We are very pleased to work with our certified partner, Imagine Technologies to deliver our Vmerge solution to the Town of Gilbert", said John Gavin, Channel Director for Voice Mobility. "The team has worked very hard to ensure the Town of Gilbert's requirements are met for now as well as into the future".

The Town of Gilbert currently has an Avaya® Intuity voicemail solution that is being replaced with Voice Mobility's Vmerge. The modular nature of the Vmerge product will allow the Town of Gilbert to utilize and pay for various features and functionalities when needed, rather than paying for everything upfront.

For more information about Vmerge, please contact one of Voice Mobility's certified resellers or Voice Mobility at 1.866.799.5577 and just say "Sales".
