Voice Mobility Announces Interim Chief Operating Officer

VANCOUVER, BC, CANADA – November 25, 2009 – Voice Mobility International, Inc. (TSX: VMY, OTCBB: VMII and FWB: VMY), a Vancouver-based developer and provider of carrier and enterprise messaging solutions, announced today that Robert Eisses will be working with the company as Interim Chief Operating Officer (COO).

Robert is an experienced technology entrepreneur with proven expertise building early stage businesses with a focus on revenue growth and channel development. Most recently Robert was President and CEO at Icron Technologies Corporation. Icron is the global leader in extending USB connectivity over long distances, or over other media such as CAT5, Fiber Optics, Wireless or Powerline technologies. Robert has a long career in technology with other companies like Norsat International, MOTIVUS Software, Pocket-IT AS and INFOSAT Communications. Robert is a serving board member of BCTIA and AceTech organizations.

Robert will be assisting the interim CEO with operational aspects of the company as the company restructures and recapitalizes. Bill Krebs will act as interim CEO in addition to his Chairman role to facilitate this restructuring process.

"The Board and staff would like to welcome Robert to Voice Mobility", said Bill Krebs, Chairman and CEO, Voice Mobility. "Robert's skill and expertise at enabling companies to effectively market their core technology while partnering effectively is a crucial requirement for Voice Mobility. The company is focusing its efforts on its core technology supporting highly scalable hosted or Software as a Service (SaaS) based voicemail and unified communications solutions and sees Robert's skill and leadership imperative as the company moves forward."
